

## Professional Summary

I am Vamshi, and my full name is Vamshi Nagaraju Ande. I am a Frontend / UI Developer with over 3 years of experience in designing and developing responsive, user-friendly, and scalable web applications. I have successfully delivered 30+ projects across advertising and IT industries, with expertise in UI design, performance optimization, and API integration. Having worked in both development and consultant roles, I bring strong technical skills along with client-focused consulting experience. I am committed to continuous learning and open to adopting new technologies that contribute to project and business growth. Currently in India and ready to relocate to Dubai on a Visit Visa – Available Immediately.
