ABOUT ME

I'm Vamshi, and my full name is Vamshi Nagaraju Ande. I'm a UI Developer with over 3 years of experience at Madworks India Advertising Ltd. Over the course of my career, I've worked on 30+ projects, focusing on building responsive and visually engaging user interfaces. I have expertise in HTML, CSS, JavaScript, and React Js, which I use to create smooth and user-friendly experiences. I'm always looking for ways to improve performance and stay updated on the latest trends in web development. I'm excited about the opportunity to contribute my skills to a new team and work on impactful projects."

WORKS & PROJECTS

Over the past 3 years, I have worked on 30+ websites and web applications, focusing on creating responsive, user-friendly, and visually engaging interfaces. My work has ranged from small landing pages to complex, multi-page websites, using technologies like HTML, CSS, JavaScript, and React.js to deliver seamless user experiences.
You can explore all my completed projects on my portfolio website www.andevamshi.in
This portfolio showcases the depth of my experience and my passion for web development.
